Family Flexibility In A Fabulous Spot

There is so much more to this inviting home than first meets the eye. Beyond the large front garden and side driveway leading to the garage lies a unique interior. The lower level opens to a generous living room sweeping around to an updated kitchen, striking contemporary family bathroom introducing a designer's touch and two robed bedrooms.

The upper level includes an almost identical floorplan with two bedrooms sharing the bathroom, large living area and a well laid out kitchen. The clever layout introduces options for a large or extended family, parents with adult children saving for their own home, children wanting to look after aging parents, or even two people looking to share a mortgage!

On a generous allotment which includes a large private rear yard complete with alfresco area, it complements its superb floor plan with a looked-for location enjoying easy access to the bus, schools, convenience store, Stables, Westfield and the station.

Price:

Auction: Wednesday 20th December at 7:00pm
