SIMPLY STUNNING!!!

This is one spectacular property that is a MUST see for anyone looking for a property that contains almost everything. So far and wide are the features I can only name a few so here goes. Three spacious bedrooms that are sure to accomodate any sleeping arrangements. Ducted heating throughout as well as airconditioning, making sure ever climate is taken care of. Huge double remote garage and an alarm system to warn off those unwanted visitors. Intercom system from inside to out (and vice-versa) as well as high range T.V. antenna. Add to this the best looking kitchen I have seen in years and stainless steel appliances that are set off beautifully by black tiling. Want more??? Well just for you the owner has included a stainless steel dishwasher and well presented front and rear yards.
