HOW LOW CAN YOU GO??

Dont let the low rental asking price trick you, this one is a definat MUST SEE!! Two spacious bedrooms, and an open living area that is very deceiving in space. Built in robes and wall to wall carpets increase the already high livability of the home and a fantastic gas wall heater will more than cater for those long cold winter nights. A magnificent timber kitchen and a modern, well lit bathroom area, and a single brick lock up garage.

Price: \$305
