## A Sophisticated Sense Of Style

The trendy interior of this ground-level apartment is defined by its striking architectural elements that are at the forefront of modern design. Sleek high ceilings with floating timber floorboards underfoot highlight the apartment's contemporary edge, while its light-filled nature creates a vibrant and positive ambience.

A radiant open-plan setting enjoys indoor-outdoor living options thanks to the seamless integration with a private courtyard, landscaped to perfection to create a nature-inspired hideaway designed for summer night entertaining or escaping the daily grind.

Modern style also extends into the impressive kitchen that boasts abundant bench and storage space, ceramic cooktop and Fisher & Paykel dishwashing drawers.

Two bedrooms are of generous proportions and fitted with built-in robes (Master with ensuite), while split-system heating and cooling, wall heater panels, secure basement car space with storage cage, generous visitors parking and BBQ facilities adds further appeal.

**Price:** \$400 per week
